Prior to the Dance a meeting of Burdett and Bow Island Veterans was held and it was unanimously decided that the Veterans of both districts unite in forming a large branch of the G.W.V.A. to be called the Bow Island-Burdett Branch. The next meeting will be held in Bow Island on Sunday, August 10th. at 3 o'clock p.m. All Veterans are requested to attend.

## A JOURNEY

TO CRESTON. B. C.

Creston B. C. July 28th. 1919.

Dear Sir:

I promised I would write and give you a short account of our trip but have been putting it off to some convenient time, which has been slow in arriving.

After bidding goodbye to our old neighbourhood we motored to Lethbridge and spent a pleasant week with friends. On leaving Lethbridge in the afternoon of June 28th we followed the C. P. R. track westward passing through Macleod and camping at Brockton on the Old Man River the first night, the next morning we had a late start and camped at Hillscrest for dinner, in the afternoon we started the climb over the mountains and passed through Frank, Blairmore and Coleman, then we rounded the Crow's Nest Lakes, the road leading around them is cut out of solid rock and the cliffs are perpendicular, towering some 400 feet above the road.

It is not altogether a road for joy riding as the road is very narrow and the least turn of the wheel would send you to the Lake below. After passing Crow's Nest which has an altitude of 4400 feet, we started on the downward road, and passing through Michel and several small towns we camped the second night at Homer, a deserted coal camp on the beautiful Elk River. The third day being Sunday we made an eight mile run to Fernie where we spent the rest of the day with friends.

The Fernie saw mill was getting ready to commence work after being idle for sometime, Monday afternoon we again took the road which in some places was not the best, after passing several large sawmills we again pitched camp a few miles west of the thriving town of Cranbrook. Tuesday we made a short run and camped at noon on the Moyie River near the mining town of the same name, and night found us camped near Yakk, where the G. N. R. from the States makes connections with the C. P. R. There is a large saw mill at this place and they have some of the largest timber there is, which will keep it going for some time. Next we came to Kitchener, a small lumber camp, from here we followed the Goat River Valley down to the Canyon, where the Rogers Lumber Co. have a large saw mill and carry on a large business. Canyon Falls is not only one of the wonders of the age, but is one of the most beautiful places nature has produced for the sightseer, after leaving Canyon we next reached the fertile valley of Creston, with its beautiful orchards and berries by the acre, and is made more picturesque by its numerous trees live under the trees, and the abundance of clover upon which they feed. The care of the bees is a very great industry and the honey is of excellent flavor. The valley is settled in small ranches by an industrious class of people, it lies between the Goat mountains and is traversed by the Goat and Kootenay rivers, affording it a never failing supply of good water, while the town of Creston is small it has some up-to-date business men, its water-works on the gravity system are to be envied by some of the larger cities, there are people coming in here every day, mostly from the prairie but all looking for a home and an up to date picture show is the latest venture of some of the business men of Creston. I have not heard a complaint of hard times since I came here. For fear of taxing your patience too long I will close, best regards to old friends and hoping it may interest others, so many have asked me to write but I find I cannot get time to write to everyone individually.

# May Not Hold Trial in London

London.—It is possible that former Emperor, William II, who is held in London, according to an announcement made in the House of Lords by Earl Carson, government leader in the upper house, will not be tried in London.

The Lords passed the peace treaty and the Anglo-French treaty through in the course of the day. Viscount Grey de Luton, holding the trial of the former German Emperor at London.

Baron Buckmaster said there were grave reasons why the government ought not to pursue any further the project of trying the German war lord. It was certainly difficult, he declared, to ask an English judge to sit on such a tribunal to administer a law he does not believe in, and he has never been defined, in a court he does not control.

In his reply, Earl Grey said he thought the Kaiser in exile is no way comparable with Charles I. or Napoleon. He was unable to imagine that a man who ignored his duties as a country could be turned into a martyr or a hero by a trial, while his continued presence near the main London might be a political danger.

It might be, however, that the trial would be held in London.

Decision has been reached, and the chances of the trial becoming a spectacular show and disturbing public opinion and the daily normal life were important considerations. Even if the trial were within the sphere of British law, by and by, it is possible that London would be the place selected.

## Resume Trade With Germany

Traders of World Bank in With First Raising of the Allied Blockade

Berlin.—The first results of the raising of the blockade, says the Deutsche Allgemeine Zeitung, the founding of Cologne with foreign goods.

"French firms," the newspaper adds, "are offering hundreds of thousands of kilograms of corn powder, chocolate, coffee, oat, fat, pork, fat, macaroni and tallow." German importers companies have been offered large quantities of corn starch and corn, hundreds of carloads of white beans and Chinese goods, and raw coffee and chocolate in huge quantities.

"The American offers include big corn, olive oil, rubber coats, steam turbines, automobile machinery, various oils and vasoline."

"An Anglo-Japanese firm offers the direct importation of boxes, paraffin, glass, oil, shellac and soap."

## Cutting Wheat Near Brandon

Brandon.—Robert Roddick, farmer of Brandon Hills, is cutting wheat. He commented on a field that was sown on April 15. It is the fastest crop since 1914. It is 30 years since wheat was cut in this particular district during July. Wheat fields in the Assiniboine River Valley are ripening fast.

## Paris Honored Victim

Paris.—Paris honored the memory of Sgt. Paul Mannheim, of the French army, who was murdered in Berlin on July 13. The body of Sgt. Mannheim took place at the Pere Lachaise cemetery. Great crowds followed the funeral procession, in which President Poincaré and Premier Clemenceau were represented.

## Civilian Disturbances All Over England

London.—Civilian disturbances in different parts of the country have been as destructive as anything committed by the military. At Swindon gangs of youths and discharged imperial soldiers looted grocery business premises and burned the flagpole outside the municipal buildings. At Luton, where the town hall was burned, further disturbances were quelled by police charges. Men and four women were arrested, and further arrests are imminent. At Coventry many shops were attacked; 40 persons were injured, some dangerously, and police assistance was sought from Birmingham. At Bolton the bricks were torn down a wall and the bricks as missiles against the police. Additional persons were summoned from neighbouring towns.

## Fatal Airplane Accident

Lieut. W. R. Cross and Wife of Aviator Killed Instantly

Portage La Prairie.—Lieut. W. R. "Buster" Cross and Mrs. S. P. Kerr are dead and slight. S. P. Kerr, of the Veteran airplane company, of Winnipeg, is in the Portage general hospital in a precarious condition as the result of a nose dive which by his machine about two miles north of this city. How the accident happened cannot be learned, except from those who saw the machine come down, and they state that the engine stopped of a sudden, the nose of the machine turned eastward and it came down with a crash.

Lieut. Kerr and party arrived here from Winnipeg with their machine, and had arranged to proceed to the Brandon exhibition. They made an early start, but had some kind of trouble west of the city and were forced to land in a field, where, while awaiting assistance in getting out, nothing more was heard of them until they were observed flying north of the city, heading evidently for the landing place used during the visit here exhibition week. They were at an altitude of about 200 feet, when, of a sudden the engine stopped and the plane came down on the farm of the Hon. Mr. McCreary.

It is surmised that, flying so close to the ground, Lieut. Kerr, who was running the machine, did not have time to straighten out before the crash came. The nose of the machine crashed into the ground and drove the engine in on top of Mrs. Kerr and Lieut. Cross, who were in the front seat, and when taken out they were crushed almost beyond recognition.

When the machine crashed, Lieut. Kerr was in the back seat looking after the control, bounced out and landed clear of the machine, but he was unconscious when picked up, and rushed to the hospital.

Parts of the machine had to be torn away to get the bodies of Mrs. Kerr and Lieut. Cross out of the wreckage, but there was no sign of life, and they must have been instantly killed.

The machine was what is known as the L.W.F. war type, 145 horse power, and has 48-foot wing span.

## Honorary Degree Recipients

Given to Leaders in War By Cambridge University

Cambridge, England.—General Sir Arthur Currie, commander of the Canadian forces, was among those who received the honorary degree of Doctor of Laws from Cambridge University. The ceremony took place on July 15. The recipients were dressed in military and naval uniforms for the occasion. The vice-chancellor of the university, Dr. Arthur E. Shipley, of Christ College, presided.

Among the various recipients of the degree were Admirals Sturdee and Wemyss, and Generals Rawlinson, Birdwood, Wilson, Herne, Monash, the Earl of Cavan and Gen. Pershing.

The vice-chancellor then entertained the party at luncheon in Christ College hall, to which they walked through the rain, the students following and cheering. Gen. Birdwood was carried shoulder high by the youths.

## Would Exclude Canadian Cattle

Fears Expressed in England That Animals Are Exposed to Diseases

London.—Farmers of England are opposing the efforts being made to remove the long-standing prohibition on the importation of Canadian store cattle. The council of the chamber of agriculture has adopted a report urging that there be no relaxation in the restrictions, not because of disease, but because the Canadian cattle are so latent in Canada, but because Canada's extended frontier exposes her to constant danger from the U.S. and the Canadian cattle are always present.

## No Trace of Nipigon Man

Port William, Ont.—Another day has passed and still the second man implicated in the murder of Constable Armstrong at Nipigon is at large. Apparently there has been no sign of him, although the search led by Sgt. Symons, Sergeant Burleigh and members of the local police forces, Moulton Police, Dominion, provincial and railway police, has been increased in the vigilance for him and are still scouring the woods between Port Arthur and Wild Goose Point.

## Awaiting Proclamation Of Peace At Ottawa

Ottawa in Throes of Doubt as to When War Measures Act Expires

Ottawa.—Parliament will be in session again before the War Measures Act expires, and the exact date of its expiration is not known. The bill for its extension is not yet introduced in the House of Commons. The bill for its extension is not yet introduced in the House of Commons. The bill for its extension is not yet introduced in the House of Commons.

While the question has not been discussed in cabinet as yet, it is probable that the date of opening will be advanced a week or two to avoid any unnecessary delay. But that peace will be officially proclaimed before the Dominion parliament convenes in the fall is not certain. The bill for its extension is not yet introduced in the House of Commons.

The point raised by Sir A. Aylesworth that the time order-in-council, notwithstanding their own provisions, will not be operative after expiry of the War Measures Act is generally conceded. A similar opinion was given by a committee of legal experts in Great Britain, which was asked to advise on the point.

## Canadians Sentenced In England

End of Trial of Seven in Connection With Death of Espion Policeman

London.—At the Surrey assizes Bugler Robert Todd and Private E. A. McAllen, of the Canadian Forestry Corps, were found not guilty of manslaughter in connection with the death of Police Sergeant Connor at Epsom and discharged. Privates F. H. Wilkie, 102nd Canadian Battalion; J. Gomers, 112th Canadian Battalion; J. A. McMaster, 3rd Canadian Reserve; and D. Veres and A. Masse, of the Canadian Forestry Corps, were found guilty and sentenced to twelve months imprisonment with hard labor.

## Strikers On Trial At Winnipeg

Winthrop Births Leaders Laugh at Evidence Tended on Conspiracy

Winthrop.—A secret service whose ramifications extended even into the carefully guarded precincts of the labor temple was named as the source of evidence of an actual revolution by Sergt. A. E. Reames, chief of the Manitoba Royal Northwest Mounted Police, at the trial of eight labor leaders charged with seditious conspiracy. The accused, R. H. Russell, W. M. Evans, W. A. Pritchard, R. J. Johns, Alderman A. A. Heaps and John Queen, George Armstrong and R. E. Bray, maintained the attitude they adopted at the first sessions; they laughed outright at some of the evidence and continually passed laughing whistles.

"Reports I had from reliable agents were to the effect that there was a plot to overthrow the government," Sergt. Reames declared, under cross-examination by E. J. Murray. He reiterated quotations from speeches by Wm. J. Evans and Geo. Armstrong which counselled revolution. He said he believed the speeches were contributed by the general public.

"I was not surprised that the strike was peaceful at first," he said. "It would have remained so if the strike could have been kept within the limits of everything in the city under the labor temple permit system."

Evidence of an independent witness, Joseph T. Hill, who had attended a meeting of the defendants before the first trial, brought out the fact that Wm. J. Evans had told a large gathering of ignorant foreigners that their homes were being searched by the police under a special police man stealing money from a strike's wife and children under the name of the strike.

He said that he was shocked and horrified at the thought of a man having so little sense that he would make such an inflammatory address to such an audience.

## Political Landslide In Prince Edward Island

Charlottetown, P.E.I.—Liberals swept the province in the general elections, capturing 26 seats out of 30.

The only Conservative survivors of the debacle were Hon. Arnsperth, premier, Hon. James A. McGill, commissioner of public works, and Hon. J. W. Stewart McKinnon, commissioner of agriculture, who were defeated.

This was the most one-sided election since Confederation, with the exception of 1911, when the Liberals won only two seats. While the Liberals, the parties stood: Conservatives, 18; Liberals, 11; and one seat vacant.

The Liberals elected are: Bell, La, Gallant, McArthur, Sanders, Dennis, McLean, McArthur, Crosby, Hughes, Leppie, Brown, MacDonald, King, Irving, Higgs, Duffy, D. C. MacDonald, Acorn, Cos, McIntyre, Johnston, Dewar, Sutherland, Butler and Heslop.

Such a sweeping victory was unexpected by both sides, although the result of the federal elections, where four Liberals got a majority of home votes, afterwards changed by the soldiers' votes, foreboded a Conservative defeat. The returned soldiers did not take an active part in the contest, but it is evident that a majority voted Liberal. This was brought out a large vote. There was a big turnover in Charlottetown, the Liberals capturing 10 seats by large majorities, labor going with the opposition.

Dissatisfaction with the administration of the public works department, especially the neglect of roads, with the administration of the agricultural department, and with the proposals of the government to levy additional taxation told against the Conservatives. People also looked with distrust upon the highway bill, fearing that payment of the federal cent asked for by the state government would be too heavy a burden.

The French government has conferred the Médaille Militaire, its highest decoration for an enlisted man, on a negro corporal of the 32nd Infantry who has formerly been a member of a Boston restaurant. He is a Boston restaurant. He is a Boston restaurant. He is a Boston restaurant.

## Lenine Wants Peace With Rumania

Makes Communique for Armistice, But Tells Russian Striving to Propose

London.—A Bolshevik delegation has arrived at Kishinev with an offer of peace to the commander of the Rumanian troops on behalf of Nikolai Lenine, the Bolshevik premier, according to a Berlin government wireless dispatch.

Lenine offers to cede Bessarabia to Rumania on condition that Rumania shall prohibit Ukrainian diets and bands of Admiral Kolchak, head of the all-Russian government at the center of depriving the Rumanian frontier.

An armistice to last eight days has been concluded on the Bessarabian front, and the delegation has gone to Rumanian headquarters.

## Victory For Clemenceau

Great Success of Premier Clemenceau When He Won a Vote of Confidence

Paris.—All newspapers, excepting those hostile to the French premier, comment upon the great success of Premier Clemenceau when he was a vote of confidence in the Chamber of deputies. Some papers make the point that the result shows the vote, in which the government was re-elected, was not aimed at the government, but was intended to obtain a more energetic policy, designed to end the high cost of living, which was declared, through the coming elections.

## Prince To Visit White House

British Heir-Apparent Invited to Be Guest of United States Government

London.—The Prince of Wales will reach the U.S. next month as the guest of the U.S. government. King George, on behalf of the Prince, has issued an invitation sent to the President in Washington.

After his visit to Canada, the Prince will go to Washington for a few days as a guest of the United States government and later will make a brief visit to New York, where he will live on board the British battleship Renown in New York harbor, although still a guest of the government.

## King to Unveil Montreal Buss

Montreal.—King George has consented to unveil the memorial here to Sir Etienne Cartier by pressing a button at Balmoral.

The bus, which was unveiled by President of the Cartier centenary, of which the former Governor-General, Lord Balmoral, was the guest, will be unveiled by the method on September 6, the anniversary of Cartier's birthday. A wire will be run from Balmoral to connect with the Atlantic and Canadian cable lines, thus forming a direct electrical connection.

## Trading In Titles Is Charge Made

London.—The tender spot in British political life today is the disposition of titles. These are awarded, of course, by the King, but are published in the names of the Prince of Wales, and the criticism of reformers is that titles have been given for a long time and by various prime ministers for purely party service, and practically bought by contributions to party funds.

The title of Lord has a peculiar interest in this matter, because the "old noble" families are jealous of having their caste lowered by the addition of the new title, and purely to the orders of nobility.

The question was threatened last year, and there was a general understanding that hereafter when honors were announced the reason for their bestowal should be published. It is alleged, not in substance, because several much criticized honors in the last list were described as "for public services," which might mean almost anything.

Paris.—Germany will have to surrender to France 500,000 stags, 3,000 stags, 90,000 milk cows, 100,000 sheep and 10,000 goats, according to a report made to the French peace commission sitting under the presidency of Kisevivi, by M. Dubois, economist of the peace treaty.

Two hundred stags, 5,000 stags, 10,000 stags, 50,000 stags and 1,000 stags were also to go to Belgium from Germany. The deliveries are to be made in the next period of three months until completed.

The question was threatened last year, and there was a general understanding that hereafter when honors were announced the reason for their bestowal should be published. It is alleged, not in substance, because several much criticized honors in the last list were described as "for public services," which might mean almost anything.

The new national party, which has a few members in the House of Commons, has taken up the question. The chairman, Gen. Page Croft, has written in the newspapers proposing to prove before any judicial committee that since 1910 one member of parliament has rejected an offer of a peerage in exchange for a cash payment to party funds, and that the father of a member of the House of Commons was offered a baronetcy for £25,000.

He charged also that a member of parliament who was created a peer added in exchange of the war, subscribed shortly afterwards a very large sum of money to a newspaper that supports the Premier.

He mentioned also instances in which he says titles were granted to a politician as a notorious scharlatan, as to be regarded as unfit to be a candidate for parliament, to another politician regarded as unscrupulous, and to a third man "previously involved in a notorious scandal."

### McClary's Kootenay

TOP, bottom and all four sides  
of the Kootenay oven are  
evenly heated. That is why it is so  
famous as a dependable baker.  
There is a thermometer, too, to  
tell whether the heat is right or not.

No range is quite so easily managed. Duplex grates  
clear the ashes at a single turn. Burnished cooking-  
top never needs blacking. Nickel-plated oven walls  
are kept clean with a damp cloth. Well-fitted joints  
and doors hold the fire—and the oven heat—for hours.

Let us show you the Kootenay.
